Hello Ben,

Thank you again for taking the time to meet with me and the Forest Service for the inspection at the asphalt mine yesterday. I am attaching my inspection report that outlines a path forward. I thought the reclamation bond escalation was due in 2015, but according to our records it is actually December 2016. Needless to say, if you do update the mine plan, it will likely require updated bond calculations, regardless.

I will plan on drafting that Directive letter as we discussed back in your office with the commissioner. It may not be until next week, as I am taking a few vacation days starting tomorrow.

Thanks again and I am happy to talk with the commissioners if anybody has further questions for me.

Best regards,

April
